Projects

Tutotube

15 April - 20 April

Tutotube uses Open AI and semantic search tech to provide easy-to-understand answers from YouTube videos. Users input natural language questions, and the platform retrieves the best answer, making it a valuable learning tool.

Tools - React Js, Open AI, Node js, MongoDB, JavaScript

Anonymous Confessions

Sept 2022 - Oct 2022

Proficient in web application development, a cutting-edge platform for anonymous confessions was conceptualized and constructed, empowering users to divulge their secrets and peruse the disclosures of others without compromising their identities.

Tools - Express.js, HTML, CSS, JavaScript, Node.js

Web Based Fund Transfer System

Oct 2022 - Nov 2022

With my leadership, a cutting-edge project was developed, allowing effortless fund transfers between bank accounts while providing a monitoring system for ongoing transactions, giving users complete visibility.

Tools - Mongo dB, Bootstrap, HTML, JavaScript, Node.js
